## **PLAN COMMISSION - WEDNESDAY, MARCH 11**

At the March 11<sup>th</sup> Plan Commission meeting, representatives from Fields Infiniti presented plans for exterior modifications to their auto dealership building located at 2100 Frontage Road. Originally constructed in 2004, the two story structure includes sales and showroom space, repair and maintenance facilities, client hospitality areas, and administrative offices. The proposed modifications include two small additions, a redesign of portions of the south and east elevations to include a 16-foot tall aluminum and clear glass curtain wall that focuses attention on the cars inside, an aluminum and opaque glass extended panel above the south exterior wall, brushed aluminum accent panels surrounding the south service garage door and along the left side of the glass curtain wall, and new paint color on the entirety of all exterior walls. A full renovation of the interior, not subject to the Plan Commission's review, is planned as well. The proposed exterior and interior design changes follow international branding standards required for all Infiniti sales facilities. Members of the Plan Commission adopted a motion to approve the exterior modifications subject to staff review of all final building materials and Plan Commission final review of the exterior color. A rendering of the proposed southeast building elevation is below.
