Glencoe. Then, spend the afternoon (2-4:30 p.m.) at Kalk Park enjoying family friendly games, attractions, entertainment, and food presented by Glencoe Park District. Beginning at 4:00 p.m., Glencoe Junior High Project and Glencoe Youth Services will host a Taste of Fall with delicious food, beverages, musical entertainment and much more! Halloween pumpkins will be available for purchase throughout the day. All ages welcome! Visit the [Glencoe Park District's website](#) for more information.

FRIENDS OF THE GREEN BAY TRAIL BUCKTHORN BARBECUE

Friends of the Green Bay Trail will be hosting their Annual Buckthorn Barbecue on Thursday, October 22nd at the Chicago Botanic Garden. The event raises money to support Friends of the Green Bay Trail as they work to create and maintain a healthy plant habitat along Glencoe's Green Bay

Trail by removing invasive species and planting natives. For more information and to purchase tickets visit the [event website](#).

SHERIDAN ROAD RESURFACING IMPROVEMENT UPDATE

IDOT's maintenance resurfacing improvement on Sheridan Road from Lake Cook Road to Winnetka Avenue in the Villages of Glencoe and Winnetka is currently underway. During the week of September 28, the contractor will begin lowering manholes in preparation for grinding the asphalt surface off. Manhole structures in the pavement will be lowered and patched with asphalt material. They may begin milling the asphalt by the end of the week, weather permitting. Any of the road improvements may require daytime flagging operations around the work zone although the corridor is expected to remain open to traffic. Work is expected to continue late into this year. Regular updates on the progress of the work on Sheridan Road will be posted on the Village of Glencoe website at www.villageofglencoe.org.

WOODLAWN AVENUE STORM SEWER UPGRADE

The Village completed the installation of a storm sewer upgrade on Woodlawn Avenue between Linden Avenue and Green Bay Road this week. The work required a temporary closure of the southbound lane on Green Bay Road on Friday to complete a connection into the storm sewer system. The upgrade upsized the existing storm sewer to increase the capacity of the system and improve storm water flooding in the area.

VILLAGE DOWNTOWN BUSINESS DIRECTORY UPDATED

The Village's Business Directory has been updated for fall 2015! This directory lists all of the businesses in Downtown Glencoe, organized by the type of service provided. The directory helps to promote Glencoe businesses and serves as a quick reference guide for residents and visitors. For more information and to view the Downtown Business Directory, please visit the [Village website's business services page](#).

WINNETKA AVENUE CONSTRUCTION NOTICE

The Village of Glencoe has been informed by the Village of Northfield of the attached construction alert for Winnetka Avenue between Hibbard Road and the Edens Expressway which may impact traffic for New Trier's freshman campus and also for Loyola Academy.

ZONING BOARD OF APPEALS – SEPTEMBER 21

The Zoning Board of Appeals met on September 21 and approved a request of Annette and John Janowiak, 225 Sylvan Road, for a west side yard, setback plane, and garage door width variations for a front 2-car attached garage and a northwest rear 2nd floor addition.

The next meeting of the Zoning Board of Appeals is scheduled for November 2.

Construction Alert – Winnetka Avenue

The Cook County Department of Transportation and Highways is planning to begin the Phase II construction work on Winnetka Avenue between Hibbard Road and the Edens Expressway. The following is an outline of the construction activities planned:

- Pre-construction Operations. On September 24th the contractor plans to begin their preconstruction work including saw cutting and site preparation work. No traffic impacts are anticipated.
- Concrete Operations. On September 28th the contractor plans to start the driveway and curb work. This phase includes removing driveways and curbing, forming and pouring the replacements, and then a cure period. Concrete work is anticipated to take about 10 working days and only minimal traffic impacts are anticipated.
- Pavement Operations. Once the concrete work is completed, the contractor will start the paving operations. This phase includes the grinding down the existing pavement; repairing and or replacing the subgrade, where needed; installation of the binder course; and then the installation of the final surface course. This work is anticipated to take about 10 days to complete and on the days when the road is being ground or pavement is being placed, flagging operations will be put in place. Traffic impacts are anticipated during flagging operations.
- Stripping and Landscape. Under the final phase, the contractor will restore the landscaped areas and strip the new pavement. No traffic impacts are anticipated.

Throughout construction the County and their contractor work to minimize disruptions. Winnetka Avenue will remain open to two way traffic at all times, but during certain operations as outlined above, it will be down to one lane with flagging operations in place. **During flagging operation days, major delays are anticipated.** The contractors will provide the public with advanced notice of all flagging operation days through their onsite message boards and special construction alerts. Motorists are encouraged to plan ahead, allow for additional time, or to take an alternative route.

Please note that the actual start dates and activities may change due to weather or other conflicts. Based on favorable weather conditions, the construction is scheduled to be completed by early November. More detailed construction work and traffic conditions can be tracked at <http://northfieldwillowroad.blogspot.com/> ; through Facebook at Willow Road Construction Project; or through Twitter at @willowroadcp.
