CROSS CONNECTION INSPECTION PROGRAM

Dear Resident:

The Village of Glencoe has implemented a Cross-Connection Inspection Program designed to assure the safety of the potable water supply as mandated by the Illinois Environmental Protection Agency, the Illinois Department of Public Health, and Glencoe ordinance.

Plumbing changes have been indicated on your project, therefore, as part of the permit process, your residence must be inspected for existing and potential cross-connections. A cross-connection is a permanent or temporary direct plumbing connection that could allow contamination to enter the potable water system through backflow or back-siphonage. A typical inspection should cost around \$100.00

before a permit will be issued, a licensed Illinois plumber possessing a cross-connection control device inspector certification (CCCDI) must complete the Cross-Connection Inspection Program form on the reverse side. Where cross-connections exist they must be eliminated with either a fixed proper air-gap or installation of an approved back-flow prevention assembly.

Again, these procedures are in place to protect the safety of the public water supply and your health. Should you have any questions regarding the Cross-Connection Inspection Program, or any other water question, please contact me at 847.835.4183.

Sincerely,
Tom Weathers
Cross-Connection Program Manager

WHAT DOES THE LAW SAY?

“All premises intended for human habitation or occupancy shall be provided with a potable water supply. The potable supply shall be protected from backflow and back-siphonage.”

77 IL Admin. Code 890.1540

“The water distribution system shall be protected against back-siphonage and backflow.”

77 IL Admin. Code 890.1510 {C}

“The customer shall arrange periodic surveys of water use practices on his or her premises to determine whether there are actual or potential cross-connections to the customer’s water system through which contaminants or pollutants could backflow into the customer’s or the waterworks system. Such surveys shall be conducted by a duly licensed and bonded plumber and shall be at the sole cost and expense of the customer, and a copy of the results shall be forwarded to the superintendent of water.”

Village of Glencoe Ordinance No. 90-14-1823 Section

VILLAGE OF GLENCOE CROSS CONNECTION INSPECTION PROGRAM
